Iceland & Greenland: A Nordic Discovery

Explore a Less-Traveled Side of Northernmost Europe on a Unique Integrated Itinerary

Did you know much of Iceland is green and Greenland is icy? Delve into the distinctions on a rare adventure that combines the two, far afield of conventional routes. Start with Iceland's black sand beaches and thundering waterfalls, then head into the Highlands, a vast, bold landscape scoured by glaciers, rent by deep canyons, and rarely trod by visitors. In Greenland, where the scale and drama of our raw Arctic environs may be even more striking. Keep watch for whales as we travel by helicopter and boat to Nat Hsb's private Base Camp Greenland on the rarely visited east coast. On Sermilik Fjord, in view of the Greenland ice sheet, massive icebergs in fantastical shapes crowd the frigid waters, which we explore via Zodiac and kayak. Meet local Inuit people and learn about subsistence living in one of the most remote and stunning places on Earth.

Trip Highlights

Climb into Iceland's little-visited interior to witness dramatic rhyolite mountains, rocky gorges, braided glacial rivers, and the massive Laki Crater system

At the foot of glaciers spilling from the Greenland ice sheet, weave among icebergs in mighty Sermilik Fjord, look for whales and scout for seals on ice floes

In one of the wildest spots on Earth, our exclusive Base Camp Greenland features heated tent cabins, warm beds, hot showers and chef-prepared meals

Iceland & Greenland: A Nordic Discovery Itineraries

Explore a Less-Traveled Side of Northernmost Europe on a Unique Integrated Itinerary

2026 Itinerary

The 5-night Iceland portion of our trip explores the volcanic landscapes, waterfalls and geothermal features of the South Coast and little-visited interior Highlands before flying to Greenland for a further week of Arctic exploration.

2027 Itinerary

In 2027, the 5-night Iceland portion of our itinerary operates in reverse and also includes in-depth exploration of Fjallabak Nature Reserve in the Highlands in our customized 4x4 vehicles. The Greenland portion is identical.

Iceland & Greenland: A Nordic Discovery Accommodations

Explore a Less-Traveled Side of Northernmost Europe on a Unique Integrated Itinerary

Hotel Klaustur

Set amid the region’s dynamic nature between two of Iceland’s most famous glaciers, Vatnajökull and Myrdalsjökull, Hotel Klaustur is a contemporary boutique hotel conveniently located on Iceland’s Ring Road.

Hotel Highland

Located at the edge of Iceland’s most active and impressive volcanic area, Hotel Highland is the last outpost before entering the rugged and remote highlands, known for dramatic landscapes, glaciers, geothermal activity and expansive lava fields.

Hotel Angmagssalik

Perched high above the seaside village of Tasiilaq in remote East Greenland, 30 simple yet comfortable rooms offer guesthouse-style ambience with stunning views from a spacious contemporary lounge.

Discovering Our Planet Together

Base Camp Greenland

A singular, exclusive refuge of rustic Arctic luxury surrounded by raw wilderness. Eight heated safari-style tent cabins offer exceptional comfort and amenities for these ultra-remote environs.

Hotel Kulusuk

The only lodging in this small and traditional Inuit community, Hotel Kulusuk enjoys a scenic perch on Greenland's rocky east coast, with views of Apusiaajik Glacier and Isikajia Mountain.

Park Inn by Radisson Reykjavik Keflavik Airport

Located in Keflavik just ten minutes from the airport, the hotel provides a convenient landing spot for our final night, with easy access for departing flights.

Hotel Reykjavik Saga

This elegant new 4-star hotel in the heart of Reykjavik features sleek contemporary design elements and is just steps from all the city center attractions.

A Rare Combo Itinerary You Won't Find Anywhere Else

For adventure travelers looking to combine a trip to Iceland and Greenland on an itinerary that showcases less-visited destinations, this unique adventure fills that bill. Explore Iceland's dramatic south coast and rarely visited central Highlands, then head north to experience the rugged Arctic beauty of East Greenland in complete comfort, surrounded by some of the most remote wilderness on Earth.

1

An Exclusive Itinerary That Gets You Where Others Don't Go

Only Natural Habitat Adventures offers this combination itinerary, featuring some of Iceland's most remote and striking landscapes, then continuing to Greenland's east coast, a virtually unvisited realm of vast fjords, huge icebergs and views of the Greenland ice sheet. While other outfitters offer trips to Greenland, most go to the west side, which is where the bulk of the population lives.

2

A Rare Exploration of Iceland's Volcanic Central Highlands via Custom 4x4

With our in-depth expertise, we take you far afield of conventional Iceland routes and deep into the remote Highlands to see glaciers, gorges, dozens of rarely seen waterfalls, and more. Traveling via our own custom 4x4 mini buses with 35-inch tires to navigate backcountry terrain, we reach striking sights that few get to see, including the Laki Craters, a 15-mile chain of craters, fissures and lava formations that emerged when the Skaftareldar volcano erupted in 1783.

3

A Seamless Route with Convenient Round-Trip Connections from Reykjavik

Our adventure begins and ends in easy-to-reach Reykjavik (with flights in and out of Keflavik International Airport). All the connections and logistics are taken care of, meaning you can immerse yourself fully in this grand adventure without worrying about complex arrangements.

4

The Only "Luxury" Base Camp in Greenland

Constructed in 2015 and still without competitors, our Arctic expedition camp offers comforts you'd never expect in this exceedingly remote sector of Greenland, including hot showers, private toilets and chef-prepared gourmet meals. From camp, we have access to close-up views of the Greenland ice sheet by Zodiac. Our location near the edge of Sermilik Fjord grants us an eye-level vantage on huge icebergs floating by, and we often see whales and seals in the frigid waters.

5

A Small-Group Wilderness Immersion

Just 13 travelers can be accommodated on this adventure, giving you a sense of solitude in the wilderness and personal attention from our guides. It's a markedly different way to experience Iceland – avoiding tour buses and crowded routes – and Greenland this way, rather than with hundreds of other travelers aboard a big cruise ship, all going ashore together.

6

An Authentic Encounter with Contemporary Greenlandic Culture

In addition to our time at Base Camp, we spend time in Kulusuk; Tasiilaq, the capital of East Greenland; and the tiny village of Tinit, a 20-minute boat ride from camp. Learn about East Greenland's history and culture on walks, personal visits and a tour of the town museum in Tasiilaq. Most visitors never get to these remote communities, but we are able to meet local Greenlandic Inuit people, appreciate their enduring traditions, and gain insight into the challenges and rewards of modern life in the Arctic.

7

Unmatched Depth of Guiding Experience

Our Iceland guides are second to none, and our company has more East Greenland experience than any other outfitter. Nat Hab colleague Olaf Malver pioneered commercial kayaking trips on Greenland's east coast in the 1980s, including many historic exploratory paddling "firsts," and his deep expertise has placed us in an unparalleled position today. We know a nature adventure is only as good as the guide at the helm, and we provide the very best! **See Expedition Leader bios** and traveler comments regarding the quality of our leaders.

8

The Absolute Best Equipment

As part of our unwavering commitment to safety and comfort, we use the best and most up-to-date expedition Zodiacs and kayaks available, as well as top-of-the-line safety gear. Our equipment is meticulously maintained, reducing the chance for unexpected mishaps. We also provide the highest-quality Mustang expedition suits for our guests' safety and warmth while on the water. When safety counts, only the best will do—and not every outfitter provides it.

9

Our Quality-Value Guarantee Ensures Your Outstanding Greenland Adventure

When you travel with Natural Habitat, you receive our exclusive guarantee, clearly stating that we will meet the lofty expectations we set in our promotional materials. To our knowledge, this is the most ambitious guarantee made by any adventure travel company.

10

Feel Good About Your Carbon-Neutral Journey

We care deeply about our planet, as we know you do. When you travel with us, the carbon emissions from your trip are 100% offset—including your round-trip flights from home. Natural Habitat Adventures has been the world's first carbon-neutral travel company since 2007.

11

Natural Habitat Adventures is WWF's Travel Partner

Because of our commitment to environmentally friendly travel, as well as the exceptional quality of our worldwide adventures, we have been chosen by World Wildlife Fund—the world's leading environmental conservation organization—as its worldwide travel partner, a designation that makes us exceedingly proud.

Pricing

See <https://nathab.com/europe/iceland-greenland-nature-adventure/dates-fees> for the latest pricing details.

Included

Trip price includes: Accommodations, services of Nat Hab's professional Expedition Leaders, local guides and camp staff, all meals from dinner on Day 1 through breakfast on Day 14, select beer and wine at camp, some gratuities, airport transfers for those arriving by air on Day 1 and departing by air from Keflavik on final day, private lava tunnel tour, private glacier walking tour, gear including Mustang expedition suits for Zodiac excursions and all kayaking and glacier walking equipment, all activities and entrance fees, 4x4 transportation in Iceland, all taxes, permits and service fees.

Internal air includes: Round-trip flights between Reykjavik, Iceland and Kulusuk, Greenland, transportation between Kulusuk and Tasiilaq, and transportation from camp to Kulusuk (this will be listed separately on our invoicing).

Not Included

Travel to and from the start and end point of your trip, some alcoholic beverages, some gratuities, passport and visa fees (if any), optional activities, items of a personal nature (phone calls, laundry, etc.), airline baggage fees, airport and departure taxes (if any), required medical evacuation insurance, optional travel protection insurance.

Important Information About This Trip

Our journey to Base Camp Greenland offers the only opportunity to encounter one of the planet's most isolated locations via luxury camping. As we head way off the grid on Greenland's remote east coast, guests must be prepared for all the vagaries that come with travel to such an isolated destination. These include inclement weather, varying ice conditions, and a scarcity of operational support, all of which makes a journey to our exclusive Base Camp Greenland an adventure in the truest sense. At times, flights may be canceled due to poor weather, routes may be closed due to changing ice conditions, and some amenities may become unavailable until a new shipment arrives. But the adventure is part of the excitement, and we will use our 25+ years of Greenland operating experience to make the best of even substantial itinerary changes, should they occur.

Terrain

Terrain in Iceland is on rocky and slippery trails with roots and rocks with some elevation gain and steepness.

Terrain in Greenland is mostly off-trail and more difficult than the terrain you might be accustomed to hiking on. **Click here to see example photos of walks and hikes from our adventure.** We take your safety and risk management seriously. If it is determined by the Expedition Leader(s) that you are physically unfit for certain activities, you will be required to sit out or stay back at camp.

Medical Release Form

Due to the extremely remote nature of this adventure, all travelers are required to submit a medical release form prior to departure. This form will be emailed to you approximately six months before your trip and can also be found in your Adventure Portal. It must be completed and signed by your primary care physician, confirming that you are medically cleared to participate based on the physical requirements outlined for this itinerary.

Meals

Please understand that the meals at camp, while hearty and tasty, are specially planned and prepared for well in advance. Dietary requirements due to serious medical conditions or strict personal restrictions can be met, with ample notice, but must be adhered to while on the trip. If you have a restricted diet (such as gluten-free, vegan, dairy-free, etc), we recommend bringing some of your preferred snacks along with the appreciation that certain foods are limited in this part of the world, and there might not be many options at the Greenland hotels.

Flight Delays

It is possible that your flight to Greenland or back to Iceland could be delayed or cancelled due to inclement weather. In these cases, we provide alternate activities and accommodations during the trip time frame.

Safety

Your safety is of paramount concern to us. Toward that end, we provide highly competent guides with extensive experience in polar regions, and the very best equipment. Our guides are thoroughly trained in emergency wilderness first-aid techniques, traveling in polar bear terrain, and with maritime survival in polar waters. Ultimately, our guides make decisions with everyone's comfort and safety in mind, while trying to maximize the adventure experience for each individual. We must stress that listening carefully to your guide's instructions and directions is ultimately your responsibility and in your best interest and that of the group.

Specialized Equipment

We provide all group gear such as Mustang survival suits, kayaks and kayaking gear (dry suits, pogies, booties, PFDs) dry bags and a comprehensive first-aid kit and satellite communication devices for emergency communications. We will supply you with a comprehensive Clothing & Equipment list prior to your departure.

Mandatory Insurance

Since the areas we travel to are remote and wild (that's why we go there!), we require that all guests have, at minimum, medical evacuation insurance for this program. This is for the safety of all guests. We require that your chosen independent insurance plan includes at least \$250,000 in medical evacuation coverage.

To protect your investment and to provide peace of mind while you travel, we also strongly recommend purchasing comprehensive travel insurance. Plans may cover everything from medical treatment to trip cancellations and delays and lost luggage. Please contact our office if you would like more information about the medical evacuation and comprehensive travel insurance policies we offer by calling 800-543-8917.

Getting There & Getting Home

This trip begins and ends in Reykjavik. **You must arrive at Keflavik International Airport no later than 3:30 pm on Day 1** in order to be ready for a 5:30 pm welcome dinner and briefing. Upon arrival, you will be met by a Nat Hab representative and transferred approximately one hour to your hotel. For guests who come in early, recommended hotels will be included in your pre-departure materials.

You may depart Reykjavik at any time on the final day, though afternoon flights are recommended.

Please note: Weather delays or other unforeseen events can occur, and it is sometimes necessary to spend an extra night in Kulusuk while waiting for improved conditions. Because this does happen a few times each year, we recommend **not scheduling any important, time-sensitive events immediately after your planned return home**. Please allow a buffer in case of flight delays.

Our Natural Habitat Adventures Travel Desk can best assist with your travel reservations, as our staff is familiar with the specific requirements of this program and can help arrange the most efficient itinerary. Please call us at 800-543-8917. While we offer the best available rates to us on airfare and additional nights accommodations, you may occasionally find special web rates or lower fares online.
